

2013 was a very busy year for **Eduard Benderskiy** (Russia). He took 10 different Capra species that year to get him past #20 on the Capra World Slam list. Eduard books the majority of his trips through **Profihunt**, and we wanted to show four of his most recent trophies here. We do not have any full reports from Eduard, but you can tell from the photos he had a successful year. First is his Mallorcan wild goat from Spain,

which he took with **Espacaza**. Later, Eduard traveled to Iran and connected on a Persian desert ibex. He took a mid-Caucasian tur from his home country of Russia and Eduard's Carpathian chamois from Romania was also taken in 2013.
