## HUNTING RUSSIA with PROFIHUNT

by Zeev Nederman

**JUST RETURNED FROM A  
FANTASTIC HUNT** in Russia  
with Profihunt.

September 17, 2013: I shot a  
European Moose in the rut only 4  
hours by car north of Moscow.

September 24, 2013: bagged a  
very old Caucasian tur in the  
Kabardino Balkar Republic. The  
animal had one of its horns growing  
in to his upper jaw for years.

September 27, 2013: shot a  
Kuban Tur in Karachay Cherkessia  
Republic. The animal was over 11  
years old, and this was a very  
challenging hunt as the mountains  
are very steep.

October 1, 2013: I took a  
Caucasian Chamois in Karachay  
Cherkessia Republic. This is an  
elusive little mountain animal.
